## **BECOME A MEMBER OF MY NEW "ALPHA MOVES" TRADING SERVICE**

There was a day when I knew absolutely nothing about the stock market. A trusted friend suggested I learn more about the stock market and maybe even trade for a living. At that time, I was desperate to find a way to pay my bills. What did I do? I took a giant leap of faith. I signed up for a course on trading options. I enrolled in a 5-week trading course that did a great job of convincing me that my friend was right - that trading options could in fact make you very rich. However, the educational course did not give me the winning edge I needed to be successful. Now, I feel incredibly blessed to offer you a chance to obtain that 'winning edge'.

I would like to introduce you to my newest trading strategy - **ALPHA MOVES!** I spent hours and hours refining the criteria I previously used for my Inevitable Trend Moves indicators. Now more than ever as the current market conditions have even the most sophisticated traders scratching and clawing to secure profitability, I needed to get this right. When I finally got this dialed in, I started back-testing this strategy. And, I discovered that my "**ALPHA MOVES**" indicators won 3 out of every 4 trades. That's a 75%-win rate, and the moves my proprietary indicators were capturing could produce double or even triple digit profits.

My hypothetical back-testing results showed that from January of 2018 through May of 2021, these indicators triggered 164 trades, and 123 of them were winning trades - for an annualized return of over 200%. And, I discovered something else that blew me away. The average cost per option position to enter

an "**ALPHA MOVES**" trade, was only \$257. I knew right away that this new trading service was going to be a perfect for my followers who have smaller accounts!

I want to share this with all of my followers right away.
